

# BACTZYME<sup>®</sup>

## SOIL ACTIVATOR

**100% WATER SOLUBLE**

A natural and powerful biofertilizer for stronger, more vigorous roots and plants. Increases nutrient uptake.

Directions for use:

Use 4oz. (1 Packet) per acre for initial application.

Use 1 to 2 ounces per acre for each additional crop.

Mix with irrigation water for best results. Preferably during pre irrigation.

Mix well in at least 2 quarts of liquid per Packet for initial solution.

2 year Shelf Life with proper storage when dry.
